Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 14, 17-20 and 23-26 are pending.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 14, 17-20, and 23-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Examples are given below.

Claim 14, lines 28-39, are very unclear as to when or if certain operations even occur or what operations occur. In line 28, "the setting by said apparatus setting section has been completed " lacks a clear antecedent basis, nothing in the claim has required that the setting be completed or even performed and similar comments apply to the setting in line 34.

Claim 14, lines 28-31 appear to require that upon the completion of the setting of apparatus setting section that it is judged whether the setting of the network setting section has been completed and in case the network setting has been set then transmission occurs. However claim 14, lines 35-37 require that that if the network setting has been completed that is judged whether the apparatus setting has been completed, so it is uncertain what operations are performed and when. Similar comments apply to the events following completion of the setting of the network setting section in lines 34-35 and 30-33. It is also

uncertain what happens if it is judged that a case does not occur such as a network setting in line 30 of claim 14.

Claim 20, lines 17-28; claim 25, lines 20-31; and claim 26, lines 18-29 have problems similar to those of claim 14, lines 28-39 above.

The remaining claims fall with the parent claims.

4. In response to applicant's arguments on page 15, lines 13-24, none of the rejected claims sets forth what occurs when it is judged that setting has not been completed as applicant argues.
5. Due to the indefiniteness of the claims and the speculation required to interpret them no art rejection is made. See in re Steele 134 USPQ 292.
6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to STEVEN R. GARLAND whose telephone number is (571)272-3741. The examiner can normally be reached on Monday-Friday.
